FOR IMMEDIATE RELEASE:

JOHNSON SYSTEMS INC. Announces J-PACK Series Packs

CALGARY, Alberta (May 25, 2013) - JOHNSON SYSTEMS INC. (JSI) is pleased to announce the release of the new J-PACK Hi-Power Universal Relay Packs and J-PACK Hi-Performance Universal Dimmer Packs.

J-PACK Relay Packs are a universal hi-power series of 3 and 6 channel DMX relay packs rated at a full 20 Amps per circuit. Available in 120, 208, 240 and 277 VAC, all models employ heavy duty “air-gap” relays rated to 277VAC at 50 Amps providing solid power switching for professional environments. Designed for dry contact and/or DMX power control of LED fixtures, distributed commercial fluorescent installations or any environment where fast, precise distributed power control is demanded. Output options include Edison, Stage Pin, TLG, 19 pin Soco and terminal block. Mounting options include, pipe, portable, wall and rack mount.

J-PACK Dimmers are a truly universal hi-performance series of 6 x 1,560 Watt dimmer packs. Hi-resolution professional grade distributed dimming designed for versatility in virtually any environment. DMX and dry-contact/load-shed inputs allow for integration with occupancy sensors and photocells. Each dimmer is individually addressable with backup scenes. Output options include Edison, Stage Pin, TLG, 19 pin Soco and terminal block. These compact and feature rich dimmer packs can be wall or rack mounted, pipe mounted or used as portable/stackable units.

Details on the new J-PACK Hi-Power Universal Relay Packs and J-PACK Hi-Performance Universal Dimmer Packs, including product images, product cutsheets and specifications are available on JSI’s website at www.johnsonsystems.com.
